

## Internship Information systems

Period: September 2017

### Company Profile Amgen

Amgen is an American organization that develops, makes and sells biopharmaceuticals for sick people. Since 1993 Amgen has a marketing and sales office in the Netherlands (Breda). This organization is responsible for the marketing, sales and medical support and trials of our products in the Netherlands. Amgen's mission is To Serve Patients. The aspiration of the Dutch organization is:

*"Amgen delivers reliably the best innovative and existing (bio) pharmaceutical solutions for severe diseases and is working closely with health care providers, health insurers and government agencies to continuously create added value for the patient."*

These are not just words. Each word is lived in this sentence and is supported by processes, programs and projects. The same applies to our values. They are the basis for the culture that we want to have with each other. It concerns the following values:

- Working from a scientific basis
- Intensive compete and win
- Working in teams
- Providing added value for patients, employees and shareholders.
- Trust and respect each other
- Guarantee quality
- Collaborate, communicate and take responsibility

If you want to know more about the organization, visit the website [www.amgen.com](http://www.amgen.com)

### The Assignment

#### We offer

A duo internship, working in a dynamic multicultural global environment with operations in mainly Manufacturing and Warehousing. The Operations Information Systems department is part of a Global IS organization with lots of interaction with both business and IS colleagues with the Netherlands, but also in Europe and globally. You will be an IS Innovation Ambassador, helping us drive an innovation mindset in our ABR operations and uncover innovation needs throughout the company, regarding Information Systems. You will provide recommendations based on your findings on this topic.

You will gain experience in working in a multinational, global environment within a GMP/Pharmaceutical company. Besides that, you will get a compensation.

#### We are looking for

Two students under the same profile to be IS Innovation Ambassadors for the Amgen Breda, with following competencies:

- Independent and proactive
- Open-minded
- Strong analytical skills and a problem-solving attitude
- Strong communication skills
- Independent and hands-on
- Excellent command of English. Other language skills are very welcome

You must be a WO student in the area of Information Technology, Computer Science or Industrial Engineering.

**We are looking for**

We are looking for a student with affinity for computer science, information technology and Industrial Engineering. You are full of energy and eager to get started. You have a hands-on mentality and you are always looking for challenges. Preferably you have previous work experience. For example internships, student jobs or commissions. Experience of working or studying abroad is a plus. Good knowledge of the English language is important in this job.
